Participant Physiotherapy Consent Form

Physiotherapists in this practice will discuss your condition and options for treatment with you so that you are appropriately informed and can make decisions relating to treatment. You may choose to consent or refuse any form of treatment for any reason including religious or personal grounds. Once you have given consent, you may withdraw that consent at any time.

Please read and sign the following:

Questions of a personal nature
Your physiotherapist may ask personal questions relating to your injury and how your injury impacts on your 'activities of daily living'. The more information you provide, the more likely it is that the physiotherapist can provide effective exercise. It is your choice as to what information you choose to provide. If you feel uncomfortable with a particular question or group of questions, please let the physiotherapist know and they will cease.

Physical contact
During the examination, assessment and exercise it may be necessary for your physiotherapist to make physical contact. Your physiotherapist will ask your permission before making physical contact with you in any way. Wherever possible, contact will be made using a towel or other forms of screening. Physical contact requires your express consent. You may withdraw consent at any time at which point, all physical contact will cease immediately. Please inform your physiotherapist if you feel uncomfortable at any time.

Risk related to treatment
As with all forms of treatment, there are risks and benefits. The physiotherapist will discuss any foreseeable risks with you prior to commencing exercise. In some cases, the physiotherapist may ask you to read information related to a particular treatment, and they may request that you sign a further consent form. This is to ensure that you fully understand any risks involved. You may withdraw your consent at any time even if you have previously signed a consent form.

Substituted Consent
Where a person is incapable of understanding the risks and benefits of treatment, consent may be provided by another person legally authorized to provide such consent. Evidence of legal authorization is required in such circumstances.

You need to let us know
The risk related to some treatments can increase if the physiotherapist is not aware of certain facts. Please inform the physiotherapist if you have
- A pacemaker or heart condition
- Suffered from blood clots, thrombosis or stroke
- Suffer from diabetes
- Are currently taking medication

Please note – if after reading this page you are at all unsure of what is written, please discuss it with the physiotherapist.
